

Client Profile

A leading and innovative provider of Computing and Entertainment solutions based in the Bay Area with \$30 Billion in revenues.

Leading Computer Manufacturer Testing Strategy

Business Requirement

- ➔ The need for a script library
- ➔ Test scripts were recreated for each project
- ➔ The need to set up a best practice based testing organization on SAP TAO
- ➔ The need for a centralized view of defects across projects or traceability over time

Intelligroup Solution

- ➔ Intelligroup provided an approach to improve the QA process for SAP including Functional and Performance testing, roadmap for automation using SAP TAO for SAP and HP-Mercury for non – SAP applications
- ➔ Validation of SAP TAO as a tool based on customer's criteria
- ➔ Overall roadmap beyond Phase II Proof of Concept/ Pilot
- ➔ GO – NO GO recommendation and roadmap for the use of the SAP TAO toolset

Business Benefits

- ➔ The use of SAP TAO provides an accelerator for all generic SAP functionality and the Intelligroup Automation approach provides a test automation solution that spans the SAP and non SAP applications
