

### Client Profile

world leader in the seafood market, supplying a broad range of seafood products adapted to the needs of the modern consumer and market trends.

### Business Requirement

#### **Service Design**

- ➔ Proof of concept – virtualization
- ➔ Data center migration & consolidation strategy
- ➔ Application migration to current versions
- ➔ Upgrade the Windows landscape
- ➔ Upgrade Remote Access Infrastructure

#### **Service Operations**

- ➔ Monitoring & management of IT landscape
- ➔ Consolidation & virtualization
- ➔ SLA adherence
- ➔ Customer satisfaction
- ➔ Reduction of ticket volumes
- ➔ Higher % availability of critical applications

#### **Service Transition**

- ➔ Due-diligence & documentation
- ➔ Asset inventory & hardware lifecycle management
- ➔ Service catalog & SLA
- ➔ Health checks & patch update plan
- ➔ Monthly maintenance schedule
- ➔ Data center migration

### Intelligroup Solution

- ➔ Prepare hardware with virtualization OS (VMware ESX)
- ➔ Configuration of resources
- ➔ Creation of P2V images of systems/application for current phase
- ➔ Backup data/ copy data to SAN
- ➔ Mounting the Virtual OS and database
- ➔ Test for functionality

### Business Benefits

- ➔ Overall reduced TCO and faster ROI on infrastructure investment
- ➔ Better resource utilization rate for servers and storage
- ➔ **52% reduction** in hardware maintenance
- ➔ **50% reduction** in power and facilities requirements
- ➔ Lower administrative & maintenance costs
- ➔ **95% reduction** in time for server provisioning
- ➔ **RTO improved by >90%**
